Reducing Supply Chain Risk to Enable Better Business

DOT/PHMSA Drug & Alcohol Compliance Solution

Ensuring that contractors satisfy DOT/PHMSA drug and alcohol testing requirements is a critical component of pipeline safety compliance.

Veriforce combines software and audit services to help companies effectively manage DOT/PHMSA mandated anti-drug and alcohol (D&A) programs. D&A compliance programs mitigate contractor risk and enhance safety. In addition, tight integration with the Veriforce operator qualification (OQ) solution enables convenient management in one system from a single vendor.

Easy Identification of Contractor's D&A Status

Expert Guidance to Meet Regulatory Requirements

Streamlined Program Administration

Comprehensive View of Contractor Compliance

Intuitive Technology to Monitor Contractors' D&A Compliance

D&A Compliance Management provides:

- Quick dashboard view of each contractor's status in your D&A compliance program with a clear view of gaps
- Centralized, web-based repository to access all contractor details including but not limited to statistical data, covered employee lists, D&A plans, Medical Review Officer (MRO) and DER contacts, SAMHSA lab, and Veriforce audit reports
- D&A Actions and Action Badges in your contractors' view of the application highlight incomplete tasks to ensure visibility on steps to take to maintain compliance.
- Email reminders alert contractors when updated statistical data and covered employee lists are due, enabling ongoing monitoring of compliance
- Tools to make annual DAMIS report building easy and efficient

Experts Help Verify and Improve D&A Program Quality

Contractors' D&A Program Assessment

- Veriforce reviews each contractor's submitted D&A plan(s) to ensure they satisfy DOT/PHMSA requirements
- Require any of your contractors undergo a Veriforce D&A audit that includes an onsite inspection of D&A-related records and testing results, EAP training and communications, and subcontractor D&A compliance management activities
- For subscribers to the D&A audit service, audit findings are easily accessed within the platform to provide on-demand visibility into the quality of a contractor's D&A program
- Guidance to help remediate any concerns from an audit finding to help maintain compliance

HQ D&A Program Assessment

- Veriforce assesses your company's D&A program, utilizing DOT/PHMSA D&A protocol to determine adherence to 49 CFR 40 and 199 and to appraise the effectiveness of your program.
- An assessment includes interviews with personnel who have D&A responsibilities, as well as a review of your written D&A plan, employee assistance program (EAP), D&A recordkeeping, and program to manage your contractors' DOT/PHMSA D&A compliance.
- Veriforce offers guidance on program improvements to assure compliance with regulations set forth by PHMSA and State
