*According to a Deloitte Global Survey

With Veriforce, you are in the driver's seat to address complex regulation challenges, enhance safety protocols, and ensure compliance.

Unlike others, we offer a **TOTAL solution for contractor lifecycle management**, encompassing company-level compliance to credentials/worker-level compliance:

Company Level

- Hire a wide range of prequalified contractors, manage documentation, and analyze your organization's risk and safety profile
- COI verification – Veriforce takes care of tracking and managing it including ongoing expiration notifications to contractors. Let the Veriforce solution manage MSA requirements
- Workers comp coverage
- OSHA tracking and verification
- Peer benchmarking and best practices
- Drug & Alcohol test verification
- Real-time access to a growing network of over 100,000 approved contractors, suppliers, and vendors
- Implement more safety training programs and focus your manpower on activities in the field

Worker and Credential Level

- Qualify and verify contractor workers before they show up onsite. Supercharge your onboarding process! Deliver orientations to be completed in advance
- PROACTIVELY manage compliance at a worker level
- Manage credential requirements on a company, site, job or work type level.
- Secure Site Access controls - Who is onsite and where? Site/Gate access control
- Digital Identification
- See which contractors are up to date, meet your qualifications, and are ready to work with Veriforce WorkerPass
- Get them working sooner when they arrive – reducing costs, down-time, and time on site
