

Why Leading Companies Choose Veriforce for Contractor Management

The most complete contractor risk management solution in the world.

At Veriforce, we combine powerful software with personal service and unrivalled expertise to help you reduce workforce risk, improve contractor compliance, and stay ahead of safety challenges, more effectively and with less effort.

What Sets Veriforce Apart

140,000+ Verified Contractors

The world's largest contractor network ensures faster hiring and better coverage across your operations.

Insurance Verification You Can Trust

Our in-house insurance experts rigorously verify contractor coverage, provide discrepancy reports, and help you reduce exposure.

Software + Service, Together

Dedicated account teams and in-house industry experts partner with you to improve compliance, backed by a simple, scalable platform.

Cost-Effective, High-Value Solutions

Our pricing ensures all your contractors, vendors, and suppliers are included, without driving up their costs.

Greater Contractor Compliance

Our unmatched onboarding support means we get more of your contractors compliant than our rivals, reducing your exposure to risk.

Expertise That Delivers Results

With 30+ years of energy sector experience and onsite audits, safety evaluations, and training, we go beyond the software to make your programs stronger.

Configurable & Flexible Compliance

Tailor workflows to your workforce. Adjust compliance requirements by role, risk, location, or industry.

Proactive Risk Insights

We don't just track data. We help you predict and prevent risk with smarter, AI-driven analytics.

Fast-Track Compliance Without Compromise

With personalized onboarding support, communication campaigns, and intuitive tools, Veriforce can get your contractors ready to work in one month or less.
