

Veriforce Compliance Pro

Financial Health Intelligence for Contractor Compliance

Powered by creditsafe

Veriforce Compliance Pro integrates **Creditsafe** financial data directly into contractor scoring, reporting, and visibility — giving hiring clients a complete picture of contractor risk, so they can make faster, more confident decisions while eliminating manual lookups and reducing financial exposure across their supply chain.

Financial Risk Insights

Credit Score & Rating

Real-time Creditsafe scores surface contractor financial stability within scoring workflows.

Payment Behavior

Days-beyond-terms and payment trends flag contractors under financial strain before issues arise.

Liens & Judgments

Active legal encumbrances surface as risk indicators — early warning of contractor instability.

Business Vitality Index

Composite financial signals rolled into one scorable, alertable attribute.

Scoring & Reporting

Fully Scorable Attributes

Every Creditsafe data point maps into the Compliance Pro scoring engine with configurable rules.

Threshold Alerts

Automated notifications when financial scores drop below defined pass/fail levels.

Population Reporting

Filter and segment your contractor population by financial health in standard reports.

Dashboard Ready

Embed financial attributes in custom dashboards and data exports.

Downloadable Credit Reports

Full Report Access

Complete Creditsafe reports available on demand, directly within Compliance Pro.

One-Click Download

Instant download for audits, procurement reviews, and due diligence files.

Rich Detail

Includes payment history, credit limits, legal filings, and financial trends.

Beyond Automation

Supports manual review and deeper analysis when scoring alone isn't enough.

High-Value Risk Insights

Creditsafe adds a financial dimension that HSE and insurance data alone can't surface — catching risk earlier in the contractor lifecycle.

Fully Scorable & Reportable

Every financial attribute is wired into Compliance Pro's scoring engine: threshold rules, weighting, dashboards, and exports all included.

Powered by Creditsafe

A trusted global financial intelligence network with 365M+ company records, delivering real-time data where compliance teams work.

How Financial Data Flows Into Scoring

1 Retrieve Creditsafe Data

40+ data points integrated into Compliance Pro

2 Establish Scoring/Rules

Configurable pass/fail and weighted scoring rules

3 Update Compliance Score

Financial health reflected in overall contractor score
